Attachment 1: PA3 Group Instruction

 You are expected to form a group by **November 10**. Each group has **at most three but at least two** students. After you choose your partners for the project, please follow the following procedure to finish the self sign-up step in Canvas.

1. First login into Canvas

2. Then go to **People** menu

3. Next go to **PA3-Groups**

4. Sign in the **same** group (w.r.t group no.) to form your group

- possibly by clicking the "+" after your name, to add to a group, or just dragging your name to a group on the right side (according to instructor's view of the Canvas)

Since this project contains more contents to implement than the previous two projects, I will **expect** and also **strongly recommend** you form a group to work on it together. As I mentioned in our first lecture, this will also **connect** you with your classmates, even during this pandemic period. But if you prefer an **independent** project due to some solid objective reasons, then please first email the reasons to me for consideration. Upon my approval, you **still need to sign in a group** as well by following the same procedure indicated above.

After the deadline (November 10), you **may not be allowed to change your group** without exceptional situations. I will confirm the group formations on November 11-12.

Feel free to let me know if you come across any difficulty in doing the above.
